### **Insider Threat Program Development - Management Web Based Training Course**™

#### **Course Overview**

- There are numerous security certifications that attempt to set baseline knowledge and skill standards for positions in Cyber Security, Information Assurance, Information Security, Information Systems Security, IT / Networking Security, etc. *These certifications do not provide the knowledge and core skill-sets an individual needs to detect and mitigate "Employee / Insider" risks, or to develop, manage or support an organizations Insider Threat Program (ITP).*
- Insider Threat Defense is excited to announce the **ONLY LIVE / INSTRUCTOR LED** Insider Threat Program (ITP) Development-Management web based training available.
- Never leave your office, save on travel expenses and receive *World Class* training that will ensure you have a robust and effective ITP.
- This 1 day web based training (Taught In Two 4 Hour Sessions / Different Dates), will ensure the Insider Threat Program (ITP) Manager, ITP Senior Official (Insider Threat Analyst, FSO, CSO, CISO, Etc.), and others who support the ITP (Human Resources, IT, Network Security, Etc.), have the *Core Knowledge, Blueprint, Resources* needed for developing, managing, enhancing an ITP / ITP Working Group.
- This training will provide students with a *Step By Step Blueprint* to develop or enhance an ITP.
- If you have an existing ITP and are looking to enhance it, this training is for you.
- This training is also very well suited for any organization or business that is not required to implement an ITP, but is concerned with employee threat identification and mitigation.
- Unlike other web based, self paced, pre-recorded Insider Threat related training, that just provide an overview of the Insider Threat problem, this training is much more comprehensive and resourceful. *This course is taught Live, so students can collaborate with the Instructor in Real Time just as if the student was in the classroom.*
- Students will be provided with an *abundance* of educational resources and templates for ITP development and management. All materials will be provided to the student in electronic format (Via Download) before the training. Instructions for connecting to this web based training will be provided after registration.
- You can connect to this web based training via desktop computer, laptop, smartphone or tablet. Our goal at Insider Threat Defense is to provide our students with affordable training, from anywhere, at any time.
- This training *exceeds* the requirements for establishing an ITP per National Insider Threat Policy, NISPOM Conforming Change 2, and other compliance regulations requiring Insider Threat Detection, to ensure your government agency or business has a robust and effective ITP.
- This course is based off the [Instructors](#) *Real World Experience* (10+ Years) helping the U.S Government (Department of Defense, Intelligence Community) and businesses develop robust and effective ITP's, using a methodical approach and ability to *Think Outside The Box*. Insider Threat Defense provides our clients with the *Gold Standard* for successful Insider Threat Risk Mitigation.
