Insider Threat Program Development - Management Training Course TM

Course Overview

- This **2 day** training course will ensure the Insider Threat Program (ITP) Manager, ITP Senior Official (Insider Threat Analyst, FSO, CSO, CISO, Etc.), and others who support the ITP (Human Resources, IT, Network Security, Etc.), have the **Core Knowledge, Blueprint, Resources** needed for developing, managing, enhancing an ITP / ITP Working Group.
- ***The success of an ITP requires Key Stakeholder Commitments and Business Process Improvements.*** Students will leave this training with an ***in-depth understanding*** of the many underlying and inter-connected components of an ITP that are required for successful Insider Threat detection and mitigation
- Insider Threat Mitigation also requires ***mimicking the mind*** of a Malicious Insider to assume their point of view. We incorporate the ***Insiders Playbook of Malicious Tactics*** into our training. This will help our students find holes in their organizations security defenses, before a **REAL** Malicious Insider does.
- Insider Threat Mitigation Training requires more than just attending a course, reviewing PowerPoint presentations and taking an exam. We provide our students with an ITP Management Toolkit. The toolkit provides students with a ***How To - Step By Step Guide*** (ITP Management Handbook), templates, resources and a variety of Insider Threat Vulnerability checklists, to ensure your organization has a ***robust and effective*** ITP. Except for the handbook, all training materials will be provided in electronic format (USB Thumb Drive).
- This training ***exceeds*** the requirements for establishing an ITP per National Insider Threat Policy, NISPOM Conforming Change 2, and other compliance regulations requiring Insider Threat Detection.
- This training is also very well suited for any organization or business that is not required to implement an ITP, but is concerned with employee threat identification and mitigation.
- This training will provide a clear business case for the necessary Security Investments (\$\$\$) and C-Suite Buy-In needed for ITP's / Insider Threat Mitigation.
- At the completion of this training, students will be ***well versed*** in how to develop, implement, manage or enhance an ITP, and have the in-depth knowledge to gather, correlate and analyze an extensive amount of raw data sources to detect and mitigate Insider Threat Risks.
- This training is based off the ***Instructors Real World Experience*** (10+ Years) helping the U.S Government (Department of Defense, Intelligence Community) and businesses develop robust and effective ITP's, using a methodical approach and ability to ***Think Outside The Box.***
- This training will illuminate some of the ***main trouble spots*** we have encountered helping our clients develop or enhance their ITP's, or from Insider Threat Risk Assessments we have conducted.

Jim

The Insider Threat Program (ITP) Development-Management web based training provided me with just the knowledge and resources I needed to start developing my ITP. This training was extremely affordable. The templates provided, allowed me to save countless hours writing an ITP manual, policy and related documents. I thought I had a pretty good understanding of the insider threat problem. WoW, what I didn't know could have been very costly and damaging to my company. I feel very confident I can create and effective ITP to detect and mitigate insider threats.

Mr. Henderson

Delvon and I have spent the last week finally getting to deep dive into the resources you provided during the training and establish a plan. Our overarching response is this training was **EXTREMELY** valuable! I doubt we could have ever established a sufficient or robust Insider Threat Program without your guidance and resources you've provided to date - just fantastic! I look forward to sharing your contact information with our business partners and highly recommend your services.

Your training was extremely comprehensive and I gained a wealth of very valuable knowledge attending the Insider Threat Program - Development Training Course. As I mentioned to you in class, I attended the Carnegie Mellon University (CMU) Insider Threat Program Manager Course. I spent \$3500, plus travel. I left with limited knowledge and resources to help me develop my companies Insider Threat Program. Wish I had known about your training first. I got so much more out of your course, compared to the CMU course. I will highly recommend your course to other security professionals I know. Your course is # 1 in my book.

Thank you for allowing our office to participate in the training session, it was very informative and useful. I think you have a successful program and it is going to be great for other security professionals to have this available to them.

This course was **excellent** and you provided more than enough information for a new Insider Threat Program Senior Official (ITPSO) to start a program, and for an ITPSO with an existing and robust program to have a wealth of additional information to build on what they already have. I will be taking time to review everything that you sent to us and figure out how to build some of it into our program.
