### **Insider Threat Program Development - Management Web Based Training Course™**

#### **Course Overview**

- The Insider Threat Defense Group (ITDG) is excited to announce the ***ONLY LIVE / INSTRUCTOR LED*** Insider Threat Program (ITP) Development – Management (ITPDM) web based training available.
- Unlike other web based, self paced, pre-recorded Insider Threat related training, that just provide an overview of the Insider Threat problem, this training is much more comprehensive and resourceful. ***This course is taught Live, so students can collaborate with the Instructor in Real Time just as if the student was in the classroom.***
- Never leave your office, save on travel expenses and receive ***World Class*** training that will ensure you have a robust and effective ITP.
- You can connect to this web based training via desktop computer, laptop, smartphone or tablet. Our goal is to provide our students with most affordable and comprehensive training, from anywhere, at any time.
- This ***comprehensive and practical 1 day training course*** (Taught In Two 4 Hour Sessions / Different Dates) will ensure the ITP Manager / Senior Official / FSO have the ***Core Knowledge, Blueprint, Resources*** needed for developing, managing or enhancing an ITP / Working Group.
- Any key stakeholder that supports the ITP (Insider Threat Analyst, CSO, CISO, CIO / IT, Network Security, Human Resources, Legal, Etc.), will ***gain a much broader and deeper understanding*** of the many underlying and interconnected components that are required for a comprehensive ITP. Stakeholder support is critical to the success of an ITP.
- This training ***exceeds*** the requirements for establishing an ITP per National Insider Threat Policy, NISPOM Conforming Change 2, and other compliance regulations requiring Insider Threat Detection, to ensure your government agency or business has a robust and effective ITP.
- Insider Threat Mitigation (ITM) Training requires more then just attending a course, reviewing PowerPoint presentations and taking an exam. This training provides students with an ITP Management Toolkit. The toolkit provides students with an ***abundance*** of educational resources, templates and checklists for ITP development and management. All materials will be provided to the student in electronic format (Via Download) before the training.
- This training is also very well suited for any organization or business that is not required to implement an ITP, but is concerned with employee threat identification and mitigation.
- This training is based off the **Instructors *Real World Experience*** (10+ Years) helping the U.S Government (Department of Defense, Intelligence Community) and businesses develop robust and effective ITP's, using a methodical approach and ability to ***Think Outside The Box.***

# Insider Threat Program Development - Management Web Based Training Course

## Student Comments

Jim

The Insider Threat Program (ITP) Development-Management web based training provided me with just the knowledge and resources I needed to start developing my ITP. This training was extremely affordable. The templates provided, allowed me to save countless hours writing an ITP manual, policy and related documents. I thought I had a pretty good understanding of the insider threat problem. WoW, what I didn't know could have been very costly and damaging to my company. I feel very confident I can create an effective ITP to detect and mitigate insider threats.

Mr. Henderson

Delvon and I have spent the last week finally getting to deep dive into the resources you provided during the training and establish a plan. Our overarching response is this training was **EXTREMELY** valuable! I doubt we could have ever established a sufficient or robust Insider Threat Program without your guidance and resources you've provided to date - just fantastic! I look forward to sharing your contact information with our business partners and highly recommend your services.

Thank you for allowing our office to participate in the training session, it was very informative and useful. I think you have a successful program and it is going to be great for other security professionals to have this available to them.

This course was **excellent** and you provided more than enough information for a new ITPSO to start a program, as well as an ITPSO with an existing and robust program to have a wealth of additional information to build on what they already have. I will be taking time to review everything that you sent to us and figure out how to build some of it into our program.
