INSIDER THREAT PROGRAM DEVELOPMENT - MANAGEMENT TRAINING COURSE

COURSE OVERVIEW

- This highly sought after and very comprehensive **2 day** training course will ensure the Insider Threat Program (ITP) Manager, ITP Senior Official (Insider Threat Analyst, FSO, CSO, CISO, Etc.), and others who support the ITP (Human Resources, IT, Network Security, Etc.), have the **Core Knowledge, Blueprint, Resources** needed for developing, managing, enhancing an ITP / ITP Working Group.
- **The success of an ITP requires Key Stakeholder Commitments and Business Process Improvements.** Any key stakeholder that supports the ITP will gain a much broader and deeper understanding of collaboration components required, and the many underlying and interconnected components that are essential for a comprehensive ITP. This will ensure key stakeholders are **Universally Aligned** from an enterprise / holistic perspective to detect and mitigate Insider Threats. This training will also cover the legal aspects and considerations for an ITP.
- Insider Threat Mitigation (ITM) training requires more than just attending a course, reviewing PowerPoint presentations and taking an exam. **We provide our students with an ITP Management Toolkit.** The toolkit provides students with a hardcopy ITP Management Handbook, and an abundance of educational resources, templates and checklists for ITP development, management and optimization. All materials will be provided to the student in electronic format (USB Thumb Drive) at the beginning of the training.
- ITM also requires **mimicking the mind** of a Malicious Insider to assume their point of view. We incorporate the **Insiders Playbook of Malicious Tactics** into our training. This will help our students find holes in their organizations security defenses, before a **REAL** Malicious Insider does.
- This training **exceeds** the requirements for establishing an ITP per National Insider Threat Policy, NISPOM Conforming Change 2, and other compliance regulations requiring ITM.
- This training is also very well suited for any organization or business that is not required to implement an ITP, but is concerned with employee threat identification and mitigation, and interested in implementing an ITM Framework.
- This training will provide a clear business case for the necessary Security Investments (\$\$\$) and C-Suite Buy-In needed for an ITP / ITM.
- **Students who attend this training will be issued an ITP Manager Certificate.** This certificate will certify to employers that the student has the **comprehensive knowledge needed** to develop, manage or optimize an ITP from A-Z. Students will earn 16 Continuing Professional Education Hours / Credits for attending this training.
- This training is based off the [Instructors](#) (Mr. Henderson) **Real World Experience (13+ Years)** helping the U.S Government (Department of Defense, Intelligence Community) and businesses develop robust and effective ITP's, using a methodical approach and ability to **Think Outside The Box.**
- Mr. Henderson is the Founder and Chairman of National Insider Threat Special Interest Group ([NITSIG](#)), and Founder / Director of the Insider Threat Symposium & Expo. The NITSIG was created in 2014 to function as a National Insider Threat Information Sharing & Analysis Center. The NITSIG Membership is the largest network (**1000+**) of ITM professionals in the U.S. and globally.
